CHIEF RAXXESS SERIES

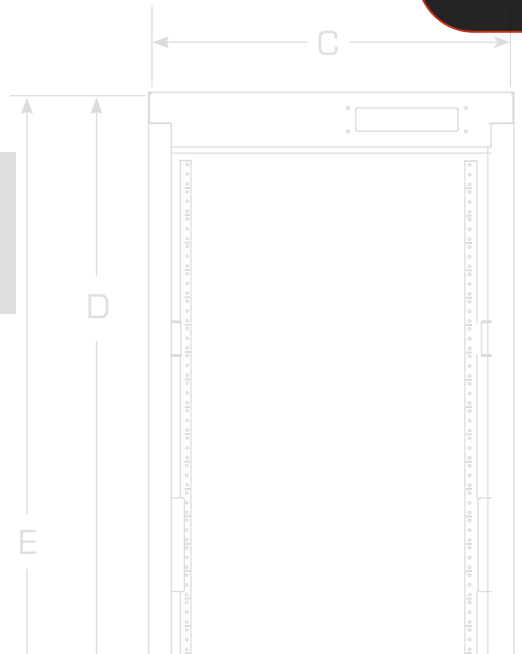

ALL NEW RACK SYSTEMS

E1™ SERIES

Enclosed Rack

With solid steel construction, the E1 includes extra space on the bottom of the rack for easily mounting small components. It also provides consistent openings for a variety of ventilation options. This new enclosed rack is packed with features that make the installer's job easier.

FEATURES

EASY-TO-ADD ACCESSORIES

The top accessory opening accepts any two 3U panels. With the new Raxxess Series fan panels, you can achieve up to 600 CFM of cooling

Innovative, reversible and interchangeable front/rear door design is available in solid steel, perforated steel and plex (plex shown)

Space for dealer branding is in a dedicated location on the frame so no rack spaces are used to add your name to the rack

VERSATILITY

Ventilated bottom cover panel allows the entire bottom of the rack to be used for mounting small components or opened up for extra cable entry

CABLE MANAGEMENT

Rear rack rail is included for easy cable management and laser cut knockouts are touch- and cable-safe

SMART PACKAGING

Packaged securely with padding that stays on the rear of the rack after other packaging is removed so the rack can be safely laid on the floor to load heavy components

OPTIONS AVAILABLE

Model	Rack Height	Overall Depth	Usable Depth	Height	Height w/ Casters
NE1F2023	20 space	23" (584 mm)	20.25" (514 mm)	42" (106.6 cm)	43.4" (110 cm)

NE1F4428	44 space	28" (711 mm)	25.25" (641 mm)	83.9" (213 cm)	85.3" (216.6 cm)

S1™ SERIES Knock Down Rack

Introducing the easiest-to-assemble knock down rack on the market. The S1 was engineered with rack rails that are self-supported during assembly allowing one person to easily assemble the rack in under five minutes.

FEATURES

EASY-TO-ADD ACCESSORIES

The top accessory opening accepts any two 3U panels. With the new Raxxess Series fan panels, you can achieve up to 600 CFM of cooling

Innovative, reversible and interchangeable front/rear door design is available in solid steel, perforated steel and plex (perforated steel shown)

Space for dealer branding is in a dedicated location on the frame so no rack spaces are needed to add your name to the rack

VERSATILITY

Ventilated bottom cover panel allows the entire bottom of the rack to be used for mounting small components or opened up for extra cable entry

CABLE MANAGEMENT

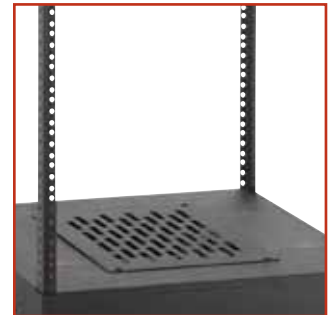

Side braces on 28U and taller S1 racks accept power strips or vertical lacing strips

SIMPLE & DURABLE

Extremely durable steel construction with rack rails enclosed at the top and bottom of the rack for extra stability

Connect multiple racks together with optional rack ganging hardware for economical multi-rack installations.

Optional side panels interlock into base for easy assembly

F1™ SERIES
Furniture Rack

Available in Mahogany, Maple or Black finishes.

■ ■ ■ (maple shown)

The perfect solution for boardrooms and video conferencing, this rack ships fully assembled and ready to go. The large 4" (101 mm) casters make it easy to maneuver wherever you need it, and the professional monitor mount accessory is ideal for computer installations.

FEATURES

EASY-TO-ADD ACCESSORIES

Large 4" (101 mm) casters for easily rolling over thresholds and thick carpet

Quickly switch the casters to floor levelers to accommodate permanent installations

Front and rear door are reversible to adapt to the installation

Rear door designed to accept a 3U fan panel (for 60-300CFM cooling) or blank, ventilated or perforated panels

Monitor mount accessory lets you easily add a monitor for controlling a computer mounted in the rack

VERSATILITY

Ventilated bottom cover panel allows the entire bottom of the rack to be used for mounting small components or opened up for extra cable entry

SIMPLE & DURABLE

Ships fully assembled so it's ready to start loading components right out of the box

OPTIONS AVAILABLE

Model	Rack Height	Overall Depth	Usable Depth	Height	Height w/ Casters
YF1F1228	12 space	30" (762 mm)	25.3" (642 mm)	29.7" (75.4 cm)	34" (86.3 cm)
