

CREATE DYNAMIC VIDEO WALLS

with Fusion Pull-Out Mounts

The new FUSION Series Pull-Out mounts extend 7" (178 mm) for easy cable access and servicing in hard-to-reach installations – even on the centermost screen of a video wall matrix. Inspired by installer feedback, the mounts include a variety of features to make installation and maintenance of multi-screen configurations a breeze. Ideal for 2 x 2 video walls or larger, up to 47" screen sizes for M-series, and 63" screens for L-series.

Optional Security

Add a padlock for additional security (sold-separately).

ControlZone™

Leveling provides post-installation height and leveling for perfect alignment.

ClickConnect™

Provides an audible click when the screens safely engage with the mount.

Centerless™

Post-installation lateral shift allows screens to slide apart and back together to simplify installation and maintenance.

Plumb Adjustment

Fine-tuning of plumb adjustment ensures the screens are perfectly vertical, even if the wall is not.

Pull-Out Extension

Extends from 3.7" (94mm) to 10.7" (272mm) to allow cable access for installation and servicing of video walls, digital signage, and single-screen recessed applications.

LSMVU™

SPECIFICATIONS

Model	TV Size Range	Depth	Weight Capacity	Extension	Plumb Adjust
FUSION Series Pull-Out Mounts					
MSMVU	26–47"	3.7" (94 mm)	125 lbs (56.7 kg)	7" (178 mm)	2.5°
LSMVU	37–63"	3.7" (94 mm)	150 lbs (68 kg)	7" (178 mm)	2.5°

INSTALLER'S CORNER

Tips for Installing a Video Wall with Fusion Pull-Out Mounts

- 1) Center the pull-out interfaces vertically on the screen using the center diamond
- 2) Using ControlZone, raise the top row of mounts before installing screens
- 3) Mount each successive row utilizing ControlZone to fine tune placement, and then adjust the plumb as necessary
- 4) Mount the bottom row with ControlZone adjustment screws facing down, and completely lowered before installing screens
- 5) For extra security, install padlocks and/or the supplied locking bracket on each mount
