

DIGITAL MENU BOARDS

FUSION™ MENU BOARD MOUNTING KITS

Easily create dynamic digital menu board solutions with Chief's FUSION Digital Menu Board kits. Get everything you need to mount your flat screen configuration in one sku!

BENEFITS OF THE FUSION SYSTEM

FUSION is a one-of-a-kind flat panel display mounting system that solves the toughest installation challenges. When paired with a digital menu board application, FUSION provides unbeatable installation features to save time and money.

FEATURES

- 1 CENTRIS® LOW-PROFILE TILT**
Centris fingertip tilt technology uses the center of gravity to balance the screen while maintaining a low profile under 2" deep! Screen angle stays set in place until readjusted.
- 2 CENTERLESS™ LATERAL SHIFT**
Get perfect screen positioning, regardless of stud placement by sliding laterally after installed for a seamless installation. Centerless saves time by allowing fine tune screen placement without excessive measuring or redrilling holes.
- 3 CLICKCONNECT® SECURE LATCHING**
Hear an audible click when the screen safely engages with the mount. A built-in cable stand provides easy access under the screen.
- 4 CUSTOMIZABLE ACCESSORY SYSTEM**
A full line of supporting accessories can be integrated with the mount, extending the same adjustment benefits to the entire configuration.
- 5 OPEN WALL PLATE**
For easy connectivity and cable routing.

KITS

Kits include FUSION universal mounting systems that work with a wide range of flat panel TV sizes, and are available in portrait or landscape configurations. Easily configure FUSION in a variety of ways.

DUAL SCREEN*

TRIPLE SCREEN*

QUAD SCREEN*

* Must specify portrait or landscape orientation.
